MARTIN J KELLY

1516 W. NORTHWEST HWY. ARLINGTON HEIGHTS 9-9 DAILY 9-5 SAT. 392-1100

A Yolkswagen, obviously.

It's easy to spot a Volkswagen.

Even with enough snow on it to hide the beet shape.

It's the one that keeps moving.

A Volkswagen will even go up try hills when other cars won i go at all because we put the engine in the back. It gives the rear wheels much better traction

I has I has me problem. But the engine can't just be there. It has to ke working. So we cool the VW engine with air, not was There's no need for anti-freme, no chance of the bloom cracking. (No possibility of bolding over in semme either.) And there's no draining. No flushing. N

You can park a VW outdoors in sub-zero weather or dig it tout of a morehant, it's ready to roll as soon as you min the key.

If you happen to live where he had soon are no problem, doc't shalk you can't padge the VW semi-ordinary abditus.

Just by a it is easif or mind.
